Skills

PROGRAMMING

Python • Java • SQL • Data Structures

• HTML/CSS • JavaScript •

FRAMEWORK

React.js • L^AT_EX • Tableau

Certification

- Certified as Azure data fundamental.
- Google cloud certified by the google.
- Certified in the course - Fundamentals of database:SQL
- Completed course certification on the fundamentals of python.
- HTML Fundamentals.

Projects

1)IMAGE GALLERY APP

PROJECT | SOURCECODE

- React App that fetches images from unsplash about the searched thing and displays all the images in beautiful layout. This App was developed by using HTML5, CSS, Javascript, Reactjs.

2)TINY URL

PROJECT | SOURCECODE

- I made a tiny url using django framework as with the use of maps here and a certain collision logic. The goal of this article is to discuss system design of services like bitly.com, tinyurl, t.co etc. Innumerable articles are present on Google. They cover various algorithms employed for url service design in great detail. However, they lack in-depth description of various system design choices. My goal in this project will be to fill those missing parts.

3)STUDENT DATABASE MANAGEMENT SYSTEM

PROJECT | SOURCECODE

in this project we have started the student database by defining the requirements and then designed the database schema to create a database. implemented tables for student data and then build database management system for students data.

4)COMPLETE RESPONSIVE REAL-ESTATE WEBSITE DESIGN

PROJECT | SOURCECODE

- I have created a complete responsive real estate website along with backend design theme using pure vanilla and mysql database.

Internships

Salesforce-Developers TRAILMIX

- It is Trailmix is setup as part of Salesforce Supported Virtual Internship Program by SmartBridge, where we learn to develop databases.

MACHINE LEARNING WITH PYTHON-VERZEO

- It provided an hands on experience on machine learning domain. we are given with two major projects by the team of Zeboe.AI in association with Verzeo for the duration of two months.

ADS VIRTUAL INTERNSHIP (ON GOING)

- ads is a german internship provided by Indo-Euro Synchronization through which i have learning the emerging technologies like python, numpy, SQL etc along with projects and assignments.
